Principal's Message

“Education is the key to success in life, and teachers make a lasting impact in the lives of their students” (Solomon Ortiz)

Greetings!!

I extend my warm welcome to visit our and to know about the ideas and ideals on which Govt. Polytechnic Panchkula is built and evolving in tune with local, state and national aspirations. Technical Education plays an important role in the development of the country in general, emancipation empowerment principal of poor and disadvantaged groups/ population in particular it provide various types of man power. It is the backbone of the country for its infrastructure, industry and economic development. The technical education system provides the practical education to student so as to groom their personalities to such a level that they create a mark not only in the growth and development of our own country but also make a remarkable and positive dent in development knowledge economies of the world. A continuous pursuit is required to meet the demands of technical market today which requires expertise in three key factors; Leadership, Technical knowledge and Managerial skills. Government Polytechnic Panchkula is the edifice of learning, which aims at the multi-faceted growth of the student. Hard work, dedication and perseverance are the important traits to be successful engineers today. This institute provides enriched curriculum concentrating on theoretical as well as practical aspects of technical knowledge to cater to the industrial demands of today. The institution is an amalgamation of experienced and dedicated faculty, excellent infrastructure, an idyllic setting and efficient administration to help students realize their goals and to be diligent to achieve it.

Industrial Visit:

Industrial visit has its own importance in a career of a student who is pursuing a professional degree. It provides students with an opportunity to learn practically through interaction, working methods and employment practices. It gives them exposure to current work practices as opposed to possibly theoretical knowledge being taught at college. Industrial visits provide an excellent opportunity to interact with industries and know more about industrial environment.

The college organizes industrial visits to help students understand about the practical aspects of production, marketing, labour relations and other activities managed by industrial sectors. The college is actively working for improving the knowledge of their students by acquainting them with fundamental concepts and organizing seminars, workshop and guest lectures by eminent personalities.

We also arrange regular competitions, paper presentations, projects, assignments, quiz, group discussion, management games, field survey, posters, etc. Students of Electrical Engg. visited at 11KV Substation madanpur on 22/04/2022. and students of Arch Astt. Visited at working women hostel sector-27, Panchkula .

“The best friend on earth of man is the tree.”

Planting a tree is like adding one more healthy year to your life. Tree plantation is recognized as one of the most engaging, environmentally-friendly activities that people can participate in to help the planet when done properly. Trees provide numerous long-term and short-term benefits. They not only look nice, but they also remove and store carbon from the atmosphere, slow heavy rain and thus reduce the risk of flooding, improve air quality, and reduce the urban heat island effect by reflecting sunlight and providing shade. Let us take a look at the Tree Plantation Drive of Govt Polytechnic Panchkula.
